**R & D Learning:** provides information on post-qualification courses available to mental health professionals. The website includes not only postgraduate courses but also includes a wide variety of other short courses, workshops and conferences provided by organisations such as the Mental Health Nurses Association, the National Institute for Mental Health in England and the Sainsbury Centre for Mental Health. R&D Learning currently holds details of over 6,000 educational events and can be searched by geographical area, subject, keyword or level of qualification.

To search the database, click on the logo above.

**Health Research Design Service North West (HRSNoW):** is the NHS R&D Support Unit (RDSU) for the North West of England and a member of the national network of RDSUs. They are a collaboration between Lancaster University and the Universities of Liverpool and Salford, which enables them to cover the whole of the North West region whilst still providing support on a 'local' basis. They provide support for individuals and groups - advice on any aspect of R&D, either over the telephone or in person. They can assist you with research design, research methodology, getting funding, writing up your work for publication, ethical issues etc. They also work with research networks - nationally with the members of the UKCRN, and regionally, also working with local networks such as the East Lancashire Dental network and the North west Consultant Nurses network. For more information click on the logo above.
